Look For Your Annual Water Quality Reports

Pearl Harbor, Hawaii – It's time once again for the Navy Public Works Center, Pearl Harbor (PWC) to distribute information on the quality of your drinking water.

As the owner and operator of five water distribution systems on Oahu, PWC is required by the Environmental Protection Agency (EPA) to provide an annual report to its customers on the source and quality of their drinking water. Five water quality reports (brochures), one for each of its water systems, will be distributed in early July.

Navy activities and civilian billed customers, who receive water from PWC, will receive a water report through the mail.

For Navy housing residents, copies of all five water reports will be available (after June 28) at the Navy Family Housing Office, Information Desk – 988 Spence Street near Pearl Kai Elementary School and Moanalua Shopping Center. Copies may also be obtained from PWC's Public Affairs Office by calling 471-7300.
